Constituents that have insurance will be billed, if they do not have insurance there will be a FREE voucher provided (co-pay based on insurance).

- For women in the U.S., breast cancer death rates are higher than those for any other cancer, besides lung cancer.
- Breast cancer is the most commonly diagnosed cancer among American women.
- Among African American women, the most common cancer is breast cancer at 34%.
- The recommendations for mammograms are:
 - * Women 40-49 with a family history
 - * All women 50 and over should get one annually
 - * Men with breast masses at any age should also get annual screenings
